Subject: comments on the Proposed Soitec projects

My name is Marilyn Moskowitz, I am an owner of property located at 515 Tierra Del Sol Rd. in Boulevard, ca. 92505

I wish to go on record as opposing the Soitec Solar projects that are proposed for that area.

I oppose these projects because of the significant negative impacts to the natural environment, sensitive biological and cultural resources and the ground water. this is an intensive water use project. California is in severe

drought conditions as I write this. this area is dependent on groundwater, the re-charge rate is already impacted

by the drought we don't need this already taxed resource used to wash huge solar mirrors and massive amounts

of water being used for the construction of these factory solar projects.

Property values will surely go down. these huge projects in this area will make this a very undesirable place to live.

Please include this letter in the comments on this project.

Thank you,
Marilyn Moskowitz
